## Why we do what we do...

Senior Semi-Annual Comprehensive Physical Exams provide the best assurance that your pet is happy and healthy, and will be a faithful companion for many more years to come. Semi-Annual Exams may pick up on conditions, which left untreated, could significantly shorten and diminish your pet's quality of life.

Our Senior WellCare Plan includes the standard vaccines your dog needs, as well as diagnostic tests designed to help catch any problems associated with aging before they become difficult and expensive to treat.

This plan also covers routine well care tests such as fecal exams for intestinal parasites. Certain intestinal parasites can affect the health of you and your family.

## What's included?

## When should I consider a Senior Plan for my dog?

Dogs seven years of age or older are considered seniors. Giant breeds are considered seniors when they turn five.

## What does it cost?

Because we are dedicated to the wellbeing of your pet, and believe in preventative care, the Canine Senior WellCare Plan is a wonderful value providing a 15% savings from our regular service fees.

A single payment is made prior to your pet's Semi-Annual exam and the Plan runs for a period of 12 months. Any unused services will not be refunded.

## What's not covered?

The Canine Senior WellCare Plan is **not a form of pet health insurance**. Instead, this is a prophylactic well care plan, and provides basic well care services. Therefore, additional tests, treatments and medications not specifically listed in this plan are not covered under the Canine Senior WellCare Plan, and will be charged for accordingly.
