Kitten WellCare Plan

Welcoming a new pet into your family is a very exciting time. Our Kitten WellCare Package is designed with a holistic approach to keep your pet's health on track to a long and happy life.

What pets are eligible?

Kittens up to 4 months of age are eligible to enroll in the Kitten WellCare Plan. Services must be completed by the 7th month of age.

What's Included?

Comprehensive Physical Exam:

- Otoscopic exam
- Ophthalmic exam
- Dental exam
- Neurologic evaluation
- Cardiovascular evaluation
- Weight assessment
- Skin and coat evaluation
- Abdominal palpation
- Musculoskeletal evaluation
- Pulmonary/Lung evaluation

(Up to 3) 20 min WellCare Visits

(1) Feline Rabies Vaccine

(1) Feline Leukemia/FIV Test

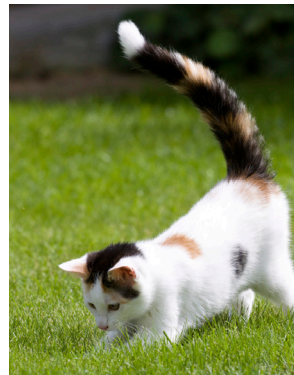

(3) Feline Distemper Vaccines

(1) Fecal Exam (Ova & Parasites)

(1) Fecal Exam w/ Giardia

(Up to 2) De-worming Treatments

First we start with our Comprehensive Physical Exam, going over your kitten from head to tail in order to make sure that your kitten is healthy and ready to enjoy all of its nine lives. Then we will test your kitten for Feline Leukemia, Feline Immunodeficiency Virus, and common intestinal parasites. And just in case your kitten tests positive for intestinal parasites, we have included two de-worming treatments.

In order to build up your kitten's immune defenses we have included a Rabies vaccination and a Feline Distemper vaccination series. As part of our holistic approach at Schulhof Animal Hospital, we spread out vaccine visits to allow your kitten's immature immune system to develop an adequate response to each vaccine. These extra visits also give you time to ask all the questions that come to mind, and give us the chance to become acquainted with you and your kitten.

What does it cost?

Because we are dedicated to the well-being of your pet, and believe that preventative care is the best care, the Kitten WellCare Plan is a wonderful value providing a 40% savings from our regular service fees. The package price is due in full at enrollment at your kitten's first visit. Eligibility for enrollment into the WellCare Plan is limited to your kitten's first visit and may not be added at a later date.

What's not covered?

Our Kitten WellCare Plan does not include the cost of your kitten's spay or neuter, flea & tick treatments or preventatives. Nor does it include a pre-operative workup such as blood work, ECG's, and radiographs. The WellCare visits in the package cannot be substituted for Sick or Injured Pet visits. Only the vaccines and laboratory tests that are explicitly listed are included.

What about having my kitten spayed or neutered?

Having your kitten spayed or neutered at 6 months of age reduces the chances of surgical complications and is beneficial because of reduced healing time. Ask us about our special discounted packages for immature/uncomplicated spays or neuters.
