

About Schulhof Animal Hospital

Schulhof Animal Hospital has operated at its current location in lovely downtown Westport, Connecticut since 1946. We are a holistically oriented, client-centered facility offering cutting edge traditional and complimentary medicine including herbal medicine, homeopathy, and nutritional approaches, among others. We also offer Cold Laser Therapy.

We have plenty of free parking, and as a full service facility we also offer a **Pet Spa** with luxury boarding, as well

as superior Grooming Services.

For additional information, a virtual tour, on-line forms, and the latest news, visit us on the web at

Notes:

We ♥ You PUPPY WELLCARE PLAN

Schulhof Animal Hospital
&
Wellness Clinic

199 Post Road W., Westport, CT
203-226-1231

Why we do what we do

A Comprehensive Physical Exam is the best assurance that your puppy is happy and healthy, and will be a faithful companion for many years to come. It is also the time to pick up on, and treat damaging parasitic infections such as worms or giardia, as well as protect your new puppy from infectious disease through vaccination.

And because we take a holistic approach at Schulhof Animal Hospital, we like to spread out vaccine visits to allow your puppy's immature immune system to

adequately respond and recover from the vaccine challenge.

Extra visits

also give you time to ask all the questions that come to mind, and give us the chance to become acquainted with you and your puppy.

What pets are eligible?

Puppies to six months of age are eligible to participate in the Puppy Well Care Plan. Spay or neuter surgery must be completed by the 6 months anniversary.

What's Included

Comprehensive Physical Exam

- *Otoscopic exam*
- *Ophthalmic exam*
- *Rectal exam*
- *Dental exam*
- *Neurologic Evaluation*
- *Cardiovascular evaluation*
- *Weight assessment*
- *Coat and Skin evaluation*
- *Abdominal palpation*
- *Urogenital evaluation*
- *Musculoskeletal evaluation*
- *Pulmonary/Lung evaluation*

Puppy Rabies Vaccine

Spay or Neuter Surgery

- *Pre-anesthetic medication*
- *General anesthesia*
- *Pulse Ox, ECG, and Blood Pressure monitoring*
- *Sterile Surgical Set-up*
- *Hospitalization, one day, level 2*
- *Catheterization and Fluids*
- *Antibiotic Injection*

What about spaying or neutering?

Spaying prevents unwanted puppies, reduces the occurrence of breast cancer, and prevents uterine infections. Neutering helps avert aggressive behavior, prevents testicular cancer, and reduces prostate disease. At SAH, we use sterile technique, pre-anesthetic, an intravenous catheter for fluids and safety's sake, as well as gas anesthesia, electronic monitoring, and pain medication just as is done in human hospitals.

What does it cost?

Because we are dedicated to the well-being of your pet, and believe in preventative care, the Puppy WellCare Plan is a wonderful value providing a 50% savings from our regular service fees.

The package is priced in two affordable installments, one at enrollment before your first visit, and one prior to your puppy's spay/ neuter surgery.

What's not covered?

Unlisted vaccines, tests, and medications, flea, tick, and heartworm preventative, pre-anesthetic blood work, radiography, ECG's and treatment of congenital or medical problems other than round & hook worms, are not covered under the Puppy WellCare Plan.
