To protect your pet's health, dogs are required to have a negative fecal exam within 90 days of their stay, as well as proof of current vaccination status. Otherwise animals will be wormed or inoculated as necessary. Please be advised that if the Bordetella Vaccine is administered on the day your pet is dropped off, no guarantee can be made that your dog will not be at risk of catching Canine Cough. It takes 3 to 5 days for the vaccine to become effective.

Dogs that become extremely aggressive may be out-placed at the owner's expense in order to protect staff and the pet. The clinic and staff will not be held liable for any medical or behavioral difficulties that develop with the above pets while boarding, provided reasonable care and precautions are followed against injury, escape, or death. I understand that any such problems will be treated as deemed best by the staff veterinarians and I assume full responsibility for the treatment expense involved. I further release Schulhof Animal Hospital from any responsibility for personal belongings left with my pets. I also understand that any charges will be paid at the time of release, or in advance in the case of a Sunday discharge. I understand that a credit card number and expiration date will be required to reserve my pet's accommodations/services. In the event of payment default I will pay reasonable attorney's fees and costs of collection.

Clients who reserve a Sunday pick-up but fail to arrive will be charged a no-show fee of \$30.00. Please be reminded that we do not charge an additional fee for Monday go-homes if the pet is picked up by noon.
